Packing

TRANSPORTATION officials have given our containers their unqualified endorsement and they, as well as most of our customers, have complimented us on their strength and neatness. It is a pleasure to say claims for damages have almost reached the vanishing point.

Stair Parts illustrated on the forward pages are all single carton packed, as well as being packed in major packages (as illustrated above) for quantity shipments and at the same time affording convenient storage for warehouse stocks.

Whenever possible it pays to purchase in major carton packages.
